

THE RICHMOND CLIMAX.

VOLUME 29.

RICHMOND, MADISON COUNTY, KENTUCKY, WEDNESDAY, SEPTEMBER 17, 1902.

NUMBER 17.

The Wonderful North Star Refrigerator

The Best Made.....

Don't be handicapped by ice bills, when a North Star will solve the ice question and will save money for you.

Water Coolers

Will soon be called into service as Spring is here. Why not buy a new clean one and make the sparkling water more inviting.

Then, there is your Old Freezer

Worn out. Get an O. K. Freezer and you will never regret the money spent.

And last but not least, don't forget that we sell the best Stoves on earth, O. K. Jewell Stoves and Ranges.

Living to Be Cheaper

The writer in the Philadelphia Ledger who predicts that the price of meat will decline to low figures during this month and October has reason on his side, though his view conflicts that of the Secretary of the National Live Stock Association. The latter recently published a long letter in which he declared that beef could not be much lower before next spring, basing his opinion on the scarcity of cattle. However, the outcry against the high prices and the government action against the alleged packers' trust caused a falling off in the demand for meat and the substitution of fish and vegetables followed. It is fair, also to suppose that the abundance and cheapness of corn now maturing will have a decided sentimental effect upon the meat market, even though cattle continue rather scarce. Cattle can be fed so cheaply this fall that a rush to the market is inevitable, besides which relief will come through the inevitably lower prices of hog products. Provisions have already begun to decline sharply in Chicago and beef must go down, too. Already the packers have reduced the quotation on dried beef one cent a pound in the local markets, and it is weak at that. Attention should also be called to the lower prevailing quotations for potatoes and flour. Flour is a fraction higher than a year ago, but it has always been so cheap it is surprising white bread is not more largely consumed. Potatoes are also selling at a reasonable figure and are likely to continue cheap. The high prices of the past have been due mainly to the 1901 shortage of the corn crop, and the bumper yield of this year should correspondingly diminish the price of the principal table supplies.—Courier-Journal.

Matches use up Forests

In the United States alone 4,000,000 feet of pine lumber are used every year for matches, or the equivalent of the product of 400 acres of good virgin forest. About 620,000,000 cross-ties are now laid on American railroads and 90,000,000 new ties are required annually for renewals. The amount of timber used every year for ties alone is equivalent to 3,000,000,000 feet of lumber. There are now standing nearly 7,500,000 telegraph poles. The average life of a telegraph pole is about ten years, so that nearly 750,000 new poles are required every year for renewals. These figures do not include telephone poles and the poles required on new railroad lines.

The total annual consumption of timber for ties and poles is equivalent to the amount of timber grown on 100,000 acres of good virgin forest. For making shoe pegs the amount of wood used in a single year is equal to the product of fully 3,000 acres of good second growth hardwood land. Lasts and boot trees require at least 500,000 cords more. Most newspaper and packing paper is made from wood. Although this industry has been developed only within the last forty years, yet the amount of wood consumed for paper during that time has been enormous. The total annual consumption of wood for paper pulp is equivalent to over 800,000,000 board feet of timber, for which it would be necessary, were the trees all growing together, to cut some 80,000 acres of prime woods.—Chicago Chronicle.

All Skin and Blood Diseases Cured.

Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm which effectually cured an eating cancer of the nose and face. The cancer healed up perfectly. Many doctors had given up her case as hopeless. Hundreds of cases of cancer, eating sores, suppurating swellings, etc., have been cured by Blood Balm. Among others, Mrs. B. M. Guernsey, Warrior Stand, Ala. Her nose and lip were raw as beef and she was unable to eat. She used Dr. King's Blood Balm and the sores healed. Mrs. Guernsey is as well as ever. Botanic Blood Balm also cures eczema, itching humors, scabs and scales, bone pains, ulcers, offensive pimples, blood poisons, carbuncles, scrofula, rising and bumps on the skin and all blood troubles. Druggists \$1 per large bottle. Sample of Botanic Blood Balm free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and send medical advice sent in sealed letter. It is certainly worth while investigating such a remarkable remedy as Blood Balm cures the most awful, worst and most deep-seated blood diseases.

An interesting story is being told of "Jim" Younger, according to the Kansas City Journal. It is said that when the bandit was sick in the Minnesota penitentiary a daughter of one of the deputy wardens prepared delicacies for him. "Jim" fell in love with her, and when he was paroled secured her consent to marry him. Her parents at first objected, but finally yielded. When "Jim" went to get his license, however, the official to whom he applied told him that in the eyes of the law he was a dead man and that he couldn't issue a license to a corpse. "Jim" can be legally restored to life only by a pardon, and past experience teaches him that this is a very difficult thing to get. It looks, therefore, as though he and his sweetheart will have to forego the felicities of matrimony. A southern Missouri paper inquires what would be done with a man who should kill Younger. "In the eyes of the law he is dead," it reasons. "It would be absurd to try a man for killing another man who is already dead." Perhaps the murderer would be technically a ghoul and would be prosecuted for grave robbery. The fine logic of the law leads to strange conclusions sometimes.

A Parson's Noble Act.
"I want all the world to know," writes Rev. C. J. Bullock, of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-round cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in Liver, Kidney and Stomach troubles. Don't fail to try them. Only 50c. Satisfaction is guaranteed by Perry & Thomas.

—Let us make that old suit look like new, by new process.
STOFFER & MAHER, Tailors.

SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

Send for free sample.

Newspaper as an Educator.

The life of the true citizen today cannot be regulated on the country governed from the school room; but, happily, at the door leading out into actual life the American youth is met by another teacher, the American press, with which it is well for his intelligence and broadness of view if he has already formed a familiar acquaintance. It is the greatest instructor of this or any other age. Its mission is to inform from day to day and week to week concerning all the news and constant changing conditions; to encourage, to admonish, to protect and to inspire throughout all the new activities and responsibilities of actual life. There can be nothing nearer to the hearts of the people, nothing of greater interest or importance, than the proper training and instruction of the children and the youth of the land. The press should help the schools, and the schools should help the newspaper. The teachers and the editors should have the closest affiliation and friendship as co-workers in education and character forming.—National Printer-Journal.

Robbery.

Burglars forced an entrance into the store of Frank Harned, the post-office also being located in the same building at Fairview, near Hopkinsville, last Tuesday morning about two o'clock, and blew open the safe with dynamite. There was about \$800 in money belonging to the government, a large number of stamps, all of which were taken. The front door was almost torn from its hinges in forcing the entrance. The explosion of the dynamite was heard by the whole town, but every one supposed it was some boys, and paid no attention to it. The thieves left no clew.

His Wild Ride For Life.
With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown, of Louisville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip prove its matchless merit for all Throat and Lung troubles. Guaranteed bottles 50c and \$1. Trial bottles free at Perry & Thomas' drug store.

Weekly Crop Bulletin.

Tobacco has improved to quite an extent, but will be a light crop. Cutting and housing is progressing well under quite favorable conditions. Late corn has improved and early fields are being cut. The yield will not be quite as good as was expected, but the crop as a whole will be nearly up to the average. Pastures and meadows have improved in the localities visited by rain, but in many places more rain is needed.

Apples continue to fall off and will give very poor results. There are no peaches of any account. Gardens are in fair condition and Irish potatoes are very good. Hemp is fully up to the average in yield and quality. Plowing for winter wheat is in progress and farm work is well up.

ATTENTION! G. A. R.

Harper's Ferry, the Gate to the Shenandoah Valley.

Where the three States of Virginia, West Virginia and Maryland come together; where the Potomac and Shenandoah rivers unite; where the towering steps of Blue Ridge end abruptly, frowning upon the heights of Maryland and Bolivar Heights in West Virginia, lies the quaint historic town of Harper's Ferry. John Brown baptized it in blood in 1859, when he captured the town and the U. S. Arsenal and made his final and fatal stand in the engine house (known afterwards as John Brown's Fort) alongside the Baltimore & Ohio railroad. A plain shaft simply inscribed, now marks the location.

Again in 1861, grim visaged war seized the village and held it tight in its grasp for nearly four years. The deeds that were done, and the tales that are told concerning Harper's Ferry fill volumes.

The heights at Harper's Ferry guarded the Shenandoah Valley. It was a most important stronghold to be desired when some great campaign was planned by either army.

From Harper's Ferry the Shenandoah Division of the Baltimore & Ohio railroad extends Southward to Charleston, Winchester, Harrisonburg and Lexington. Battlefields surround the village in all directions.

The B. & O. S. W., will make very low rates to Washington, D. C., and return during G. A. R. Encampment. All trains running through historic Harper's Ferry. For particulars ask your nearest Ticket Agent or address the undersigned.

O. P. McCarty,
General Passenger Agent
Cincinnati, Ohio.

A TEXAS WONDER.

HALL'S GREAT DISCOVERY.

One small bottle of Hall's Great Discovery cures all kidney and bladder troubles, removes gravel, diabetes, seminal emissions, weak and lame back, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and will cure any case above mentioned. Dr. E. W. Hall, sole manufacturer, P. O. Box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists and Owen McKee, Merchant, Richmond, Ky.

READ THIS:
Richmond, Ky., Feb. 9, 1901.
Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: I have used one bottle of the Texas Wonder, Hall's Great Discovery, for kidney and bladder trouble. I weighed 150 pounds when I began using it; to-day I weigh 176 pounds, and I feel better than I have in twenty years and I cheerfully recommend it to the public.
Respectfully,
J. O. R. RIDDER.

Perhaps no quality is more characteristic of the work of Booker T. Washington than the sanity of his point of view. His article "Problems in Education" in the September Cosmopolitan is not only with the work of Tuskegee Institute but with the educational needs of the entire colored population of the United States. The race problem is not one which can be left to settle itself, and every thinking man or woman should read this valuable contribution to a discussion whose importance will increase rather than decrease in the years to come.

Woman's paper sphere is around of shopping.

BRADFIELD'S Female Regulator

A vegetable liquid for governing or equalizing the flow of women's menses which occurs once in every lunar month. It is a concentrated essence best adapted for women's delicate organism, and put in such form that it is always properly assimilated and taken into the system. Stoppages, suppression, painful or irregularity of the menses and sickly flows are corrected and cured by the regular use of this superior emmenagogue. Menstruation, or periodic flows, necessitate a breaking down of cells lining the mucous membrane and a reconstruction after every sickness, which is accompanied with marked congestion and loss of blood. Such changes are very apt to produce chronic catarrh. Leucorrhoea or Whites is the result of these irritating discharges. Regular use of Bradfield's Female Regulator cures these troubles and restores to perfect health the patient who has suffered the debilitating losses. Buy of druggists. \$1.00 per bottle. Our Illustrated book mailed free. "Perfect Health for Women." THE BRADFIELD REGULATOR CO., Atlanta, Ga.
